Cost Savings Without Compromise

rand. Technology

Rand delivers industry-leading services that drive cost savings and provide supplemental supply, backed by 30+ years of experience as a global independent distributor and strong relationships at every level of the supply chain worldwide.

## Unmatched Quality

**Transparency:** Our rigorous inspection and counterfeit mitigation procedures provide full audit compliance with manufacturer specifications. IDEA ICE-3000 certified engineers and technicians provide in-house verification of part markings, label ID, part condition, date codes, lot codes, and packaging. Each shipment includes comprehensive test reports, featuring:

- A 72-point Counterfeit Detection Checklist, analysis against part data sheets, golden samples, and over 30 years of inspection data and photography library
- Systematic verification of each MPN against ERAI and GIDEP for known issues
- Elevated inspection to aerospace standards, AS6081/AS9120, with a full range of testing and engineering services available upon request

**Rand Certified** represents our unwavering commitment to Authenticity and Quality. Our inspection standards employ up to an aerospace-level testing process, where each step is certified and executed with meticulous attention to detail.

## Optimized Costs

- **Safe diversion:** Diverting just 10% of your market share for cost savings allows you to safely meet PPV goals without disrupting supplier relationships
- **Cost reduction:** Achieve cost savings through favorable PPV by providing Rand with your BOM and target pricing
- **Supplement your safety stock:** Improve inventory turns and reduce working capital by supplementing your inventory with scheduled deliveries from Rand

## Why Choose Rand?

### Expert Partner

- Rand's market intelligence helps you optimize your supply chain by addressing challenges and opportunities
